## INTRODUCTION

Thank you for choosing this product. The product is designed to meet the most stringent quality, performance, and safety requirements. This guide aims to improve your understanding and appreciation of your new fire surround by providing simple and informative assembly instructions.

## HANDLING

Before continuing any further with the assembly and installation of this fire surround please read the following:

- When lifting always keep your back straight. Bend your legs and not your back.
- Avoid twisting at the waist. It is better to reposition your feet.
- Avoid upper body / top heavy bending. Always bend from the knees rather than the waist.
- Do not lean forward or sideways whilst handling the product.
- Always grip with the palm of the hand. Do not use the tips of fingers for support.
- Always keep the product as close to the body as possible. This will prevent unnecessary and undue strain on the body.
- Use gloves to provide additional grip.

## UNPACKING

Carefully unpack the product using the following procedure:

- Carefully lift the parts/product out of the box
- Carefully remove the protective wrapping from the parts
- Locate the fixing pack and put aside

Note: your product will have an additional set of instructions and fixings pack provided for securing the mantel to the wall. Please keep these safely on one side until required.

## ASSEMBLY

1. Lay out the legs on a stable surface or on the floor.

Line up the fascia to the top of the legs and align the 8 predrilled holes.

To attach the first leg, insert 4 long screws into the predrilled holes and tighten using an electric screwdriver.

Repeat at the opposite side with the other leg.

NOTE: Before fully tightening the screws, ensure the top of the fascia is flush with the top of the leg.

2. Line up the top rebate strip in position on the fascia and insert the provided short screws in to the predrilled holes and tighten using an electric screwdriver.

NOTE: Before fully tightening the screws, ensure the bottom of the fascia is flush with the bottom of the top rebate.

3. Insert one of the short screws provided into each of the slots at the top of the side rebate strips. Carefully screw in place to attach to the top rebate strip.

4. Refer to the Cam Lock assembly illustrations at the bottom of this page for instruction how to assemble the cam parts.

Screw the cam lock screw in to the predrilled holes underneath the mantel top using a screw driver. Line up the screws on the mantel top with the holes in the top of the legs and fascia.

Attach the mantel top by pushing the screws all the way in to the holes, then insert a cam lock in to the predrilled holes on the fascia/legs.

Using a screwdriver, tighten the cam locks around the cam lock screws to secure the mantel top to the product.

### Cam Lock Assembly

## Additional rebate option

Should you require a 1" (25mm) rebate rather than the provided 3" (75mm) rebate, follow these instructions to attach the additional rebate strip set.

1. Place the additional rebate strips in position over the fixed rebate strips. Insert the short screws provided into each slot and carefully screw into the fixed rebate strips.

2. Insert one of the short screws provided into each of the slots at the top of the additional side rebate strips. Carefully screw in place to attach to the top additional rebate strip.

**IMPORTANT:** KEEP THE ADDITIONAL REBATE STRIP SET AND THE FIXING SCREWS IN A SAFE PLACE AS THEY MAY BE NEEDED SHOULD A DIFFERENT REBATE SIZE BE REQUIRED.
